

# Arceneaux Pest Management Service

Arceneaux Pest Management Service is a locally owned Denham Springs company. Joe Arceneaux is the owner and is a Board Certified Entomologist. Joe has 20 years field experience in the pest control industry. His family has resided in Denham Springs for over 50 years.

## **There is a difference between Arceneaux's and other pest control companies.**

- Arceneaux's is owned by a Board Certified Entomologist; no other local firm can say that. To our clients, this means expert analysis of any insect problem they may have. We are serious about the pest control industry and are constantly educating our technicians on the latest and safest techniques for our client's pest problems.
- All of our technicians live in Livingston Parish. We take care of our employees, which translates into low employee turnover. This means our clients see the same technician each time for their pest control service. Joe works in the field with the technicians; not behind a desk.

## **Services Offered:**

- ***Wood Destroying Insect Reports for Real Estate Acts of Sale (termite certificates).*** We can perform these within 24 hours of request and usually the same day. **Realtors are important to us. We will do everything possible to not jeopardize your sale.**
- ***New and Post Construction Termite Treatments*** with the most effective products and a ***Guaranteed Renewable Termite Damage Replacement Warranty available.*** Better treatments than the national companies and a lower price due to our low overhead expense.
- ***General pest control*** for any home or commercial building. Featuring safe, no odor treatments. Services include treatment for: roaches, ants, spiders, silverfish, rodents, fleas, wasps, bees (and any other creepy crawlies). No messy liquid sprays. Safe for your family and pets. Services can be performed monthly, quarterly, semi-annually, annually or on a one-time basis.

## **Our Sales Philosophy:**

- ***No pressure.*** We will never sell you a service you do not truly need. We live here and believe in what we do. We will analyze your pest problem, offer a solution and a cost for services, and you decide if our company is right for your needs.
- If you are not satisfied, we are not satisfied. ***We will do what we say,*** or your service is free.

**If you are looking for a pest control company that will be there for you now and tomorrow, then please contact us anytime at:**
